To

To whom it may concern,
I wish to call for an immediate stop to the building of the B50neu and the Hochmosel-übergang by adding my name to **petition Nr. 10681 at the Bundestag.**
The bridge and highway will interfere with the cherished Rieslings of the Mittelmosel, which are unique, world-renowned and irreplaceable.
I urge the German government to reconsider its plans and conserve the immense cultural value of this paramount heritage site.
Yours faithfully,
